Fire Hazard in Forests Increases; Forest Official Returns Here

In the furtherance of improved forestry laws in the State of Idaho, F. S. Baker, in charge of public relations of District four, has returned from a conference at the School of Forestry, at Moscow, Idaho. Others who attended the conference were Theodore Shoenmaker in charge of public relations in District one, the faculty of the School of Forestry at Moscow, and Ben Bush of the Idaho state land board. In view of the fact that nothing can be accomplished until this fall, a committee was appointed and plans formulated to conduct a campaign at once to arouse public enthusiasm for this vital interest to forestry, Mr. Baker said.

The weather in Idaho, Mr. Baker further stated, is very hot and dry, no rain having fallen in this region for nearly two months. The question of forest fire has already become serious. A few small fires are burning, but even these have proved difficult to control. To assist in the fire fighting campaign, the state forester at Washington, a few days ago, suspended all burning permits in the forests of the state.

Pinkham's Vegetable Compound, because it relieves the ailments to which they are afflicted. In almost every neighborhood there are living witnesses of its wonderful effects. Therefore, if you doubt its value or power to help you, ask your neighbor. In nine times out of ten she has been benefited by its use or knows someone who has. CHINA SEEKS STRONG MAN

Representative Republican Parliament to Meet Within a Month

PEKING, July 7.—(By The Associated Press)—China has the respect of a representative Republican parliament within the month, the first gathering of that body in five years. Its first task will be the selection of a president and in addition in Lo Yang, the unassuming figure who is regarded by many in Peking as the "strong man" needed to bring his country out of the chaos of civil strife. General Wu Pei-fu, military leader of the north, is strongly supported for the presidency. His persistent refusal to consider being raised to that position has not discouraged his supporters, nor has his retirement to Lo Yang to await parliament's action weakened his popularity. It is pointed out that his power in his own land and his prestige abroad place him in a position of unique strength as the result of the overthrow of Sun Yat Sen in the south, the crushing defeat administered to Chang Tai Lin, Manchurian war lord, and the ousting of Tzu Shih Chang, three moves in which he was the guiding hand.

WON'T SUPPORT SUN. Li Yuan Hing, who has announced that he will hold the presidency only until parliament chooses his successor, Thursday stated that he had received assurances from Cantonese members of the old parliament that they would no longer support Sun Yat Sen, but would assist the Peking government. But 40 members are lacking now for a quorum and parliament may be convened by July 20, instead of in August, as was expected.

President Li considers his tenure in office temporary, he has made clear and in his most recent announcement stated definitely that he would gladly relinquish his authority to Wu Pei-fu.

OFFICES ARE SAFE.

TIEN TSEN, July 7.—(By The Associated Press)—The Chinese postoffice here received this morning a telegram from Paoing Fu, in the province of Chih-Li, saying: "Offices here safe."

Nothing further had been heard from Paoing Fu when this dispatch was filed. There was no explanation of the message, but it naturally was interpreted here as meaning there was trouble around Paoing Fu, probably a mutiny among Chih-Li troops.

TO REPAIR DUGWAY IF ROAD NOT PAVED

Bids, which are now being called for from contractors for the paving of the Ogden canyon dugway, will be submitted within a few days and the work then will be authorized, providing the bids are not excessive, it was said by members of the city commission this morning.

It is estimated that the work can be done at a cost within \$30,000 and should the bids and other work come within this figure it is likely a contract will be awarded.

In the event that the work of repaving is not authorized after the bids are received, the canyon approach put in shape for the balance of the summer. Paving plans will then be postponed until next spring.

The distance of paving is approximately one and one-quarter miles and it is estimated that the work can be completed in 20 days.

PIPE MEN CONFER WITH OGDEN MAYOR

T. A. Ivy, general sales manager for the American Cast Iron Pipe company

of Birmingham, Ala., and D. C. Dunbar, representative of the company in Utah, this morning called upon Mayor Frank Francis and members of the city commission and conferred regarding the delivery of cast iron pipe that is to be used throughout the city in the enlarging and the extension of the Ogden water distributing system.

Mr. Ivy said that first deliveries of

pipe can be made in early September and that regular shipments can then follow which will allow the work to proceed until late in the season.

Mr. Ivy said that the general business revival throughout the country and the reopening of building operations has caused his company to be practically swamped with advance orders and the plant is now working at full blast to supply the large demand.
